Product Name: Sand & Cement Mortar & Screed

Product

Sure Level Australia Sand & Cement Mortar & Screed is designed for use as a general purpose mortar and bedding product, requiring only the addition controlled amount of clean water to the required consistency.

Product Description:

Sand & Cement Mortar & Screed is designed for professional and home person use. Suitable for small projects that require quick on-site preparation for bedding applications and mortar applications.

Features & Benefits:

- Setting shower bases & toilet pans
- General bedding applications such as Garden Edges, Rockeries
- Bedding Pavers

Features & Benefits:

- Ensure that the surface that will be in contact with Sand & Cement Mortar & Screed is clean and free of oil, grease, dust or other loose debris
- Empty the required amount of Sand & Cement Mortar & Screed into the chosen mixing container (wheelbarrow, mixer, or bucket).
- Add clean drinking water while mixing to achieve the required workability.

Note excess water will weaken the strength

- Apply the Sand & Cement Mortar & Screed to the surface and level off to the required depth or to complete the task required
- Apply the Sand & Cement Mortar & Screed to set sufficiently to be able to be finished with a damp sponge, steel trowel or timber float
- Allow the Sand & Cement Mortar & Screed to set for at least 24 hours before allowing use of the bedding component.

Mixing: Sand & Cement Mortar & Screed requiring only the addition of fresh clean water. DO NOT MIX BY HAND.
The selected water content should be accurately measured into a mixing vessel to ensure strength and consistency.

Clean Up: Sand & Cement Mortar & Screed should be removed from tools with water immediately after use.

Storage: Sand & Cement Mortar & Screed has a shelf life of approximately 8 months if kept in a dry environment and completely away from moisture.

Health & Safety:

The Sand & Cement Mortar & Screed Safety Data Sheet (SDS) is available at info@surelevel.com.au

- As cement is highly alkaling when wet, ensure avoidance / contact with skin as it is very harmful.
- During use avoid inhalation of dust, contact with skin and eyes.
- Suitable protective clothing, dust masks, gloves and eye protection should be worn.
- If skin irritation occurs, remove contaminated clothing and flush skin thoroughly with water for a minimum of 15 minutes. Contact Poisons Information Centre or consult medical adviser.
