## Safety Data Sheet

**Product Name: Sand & Cement Screed** 

| Section 1: Identification of Product & Supplier: |                      |   |  |  |  |
|--|----------------------|---|--|--|--|
| 1.1  | Product Name:        | Sand & Cement Mortar & Screed   |  |  |  |
| 1.2  | Primary Use          | Mixed with water in accordance with Sure Level's directions, gives a free flowing pourable grout for machinery bedding, packing and general construction.                                   |  |  |  |
| 1.3  | Other Names:         | UN #: None  Hazchem: None  GTEPG: None  DG Class None  Sub Risk: None  Spec EPG: None  NIOSH: -  IMDG: -  CASS No: None  Poisons Sched: None  Pack Grp: None                                |  |  |  |
| 1.4  | Application          | Sand & Cement Screed is designed for professional and home person use. Suitable for small projects that require quick on-site preparation for bedding applications and mortar applications. |  |  |  |
| 1.5  | Supplier Information | Sure Level Australia Pty Ltd 12 Northgate Drive, Thomastown Vic 3074. Phone: + 61 3 9464 5753 Fax: + 61 3 9464 3630 Email: info@surelevel.com.au Web: www.surelevel.com.au                  |  |  |  |
| 1.6  | Emergency Contact    | 13 11 26 (Poisons Information Centre)   |  |  |  |
| 1.7  | Appearance           | Fine Grey Sand Cement Blend Powder  |  |  |  |

| Section 2: Hazards Identification: |   |  |  |  |
|------------------------------------|---|--|--|--|
| 2.1                                | Classification of the substance or mixture      | CLASSIFIED AS HAZARDOUS ACCORDING TO SAFE WORK AUSTRALIA CRITERIA  |  |  |
|                                    | Physical Hazards                                | Not classified as a Physical Hazard  |  |  |
| 2.2                                | GHS Hazard<br>Classification                    | Skin Irritation HC-2 (H315), Eye Irritation HC-2A (H319), STOT SE HC-3 (H335),<br>STOT RE HC-2 (H373)  |  |  |
|                                    | Health Hazards                                  | Serious Eye Damage / Eye Irritation: Category 1 Carcinogenicity: Category 1 Specific Target Organ Toxicity (Repeated Exposure): Category 1 Skin Corrosion/Irritation: Category 2 Specific Target Organ Toxicity (Single Exposure): Category 3 (Respiratory Irritation) Specific target organ toxicity (single exposure): Category 3 (Respiratory tract irritation)   |  |  |
|                                    | Hazard Statements                               | Causes skin irritation - H315 Causes serious eye irritation - H319 May cause respiratory irritation - H335 May cause damage to organs through prolonged or repeated exposure - H373  |  |  |
|                                    | Precaution Warning<br>Signs                     |  |  |  |
|                                    |   | P201 Obtain special instructions before use P202 Do not handle until all safety precautions have been read and understood P260 Do not breathe dust/fume/gas/mist/vapours/spray. P264 Wash skin thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.         |  |  |
| 2.3                                | Response  | P304 + P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308 + P313: IF exposed or concerned: Get medical advice/ attention. P310: Immediately call a POISON CENTRE or doctor/physician. P362 + P364: Take off contaminated clothing and wash it before reuse. |  |  |
| 2.4                                | Storage   | P403+P233 Store in a well-ventilated place. Keep container tightly closed P405 Store locked up   |  |  |
| 2.5                                | Disposal  | P501 Dispose of contents/container to an approved waste disposal plant.  |  |  |
|                                    | Section 3: Material Composition and Ingredients |  |  |  |

| Portland Cement 14808-60-7 Medium  Silica Sand (Quartz) 14808-60-7 Medium  Flow Aid, Plasticiser Very Low  Contents: High >60%, Medium 30-60%, Low 1-10%, Very Low <1%  Section 4: First Aid Measures  Long term exposure to high dust concentrations may cause irritation to ludisorders, as cement and silica sand is now classified as carcinogenic. Coof dust, vapour ingestion in any form should be avoided. Sensitisation ma | ontact with skin, inhalation<br>y result in allergic dermatitis   |  |  |
|---|---|--|--|
| Contents: High >60%, Medium 30-60%, Low 1-10%, Very Low <1%  Section 4: First Aid Measures  Long term exposure to high dust concentrations may cause irritation to ludisorders, as cement and silica sand is now classified as carcinogenic. Co   | ontact with skin, inhalation<br>y result in allergic dermatitis   |  |  |

| Section 4: First Aid Measures  Long term exposure to high dust concentrations may cause irritation to ludisorders, as cement and silica sand is now classified as carcinogenic. Co  | ontact with skin, inhalation<br>y result in allergic dermatitis   |  |  |
| Chronic:  Long term exposure to high dust concentrations may cause irritation to lu disorders, as cement and silica sand is now classified as carcinogenic. Co  | ontact with skin, inhalation<br>y result in allergic dermatitis   |  |  |
| disorders, as cement and silica sand is now classified as carcinogenic. Co  | ontact with skin, inhalation<br>y result in allergic dermatitis   |  |  |
| responses including rash, itching, swelling of extremities, redness and irrite  | ation.  |  |  |
|   | If product comes into contact with eyes, immediately hold eyes open and wash with fresh running water. Ensure irrigation under the eyelids by occasionally lifting upper and lower lids. If pain persists seek medical attention. |  |  |
| 4.2 Skin  If product comes into contact with skin, wash affected areas thoroughly wash and soap, if available. In event of irritation, seek medical attention.  | If product comes into contact with skin, wash affected areas thoroughly with water and soap, if available. In event of irritation, seek medical attention.  |  |  |
| 4.3 Inhaled If dust is inhaled, remove to fresh air. If breathing is shallow, ensure clear apply artificial respiration. Seek medical attention.  | If dust is inhaled, remove to fresh air. If breathing is shallow, ensure clear airway and apply artificial respiration. Seek medical attention.   |  |  |
|   | Rinse out with plenty of water. If poisoning occurs, contact doctor or Poisons Information Centre. If swallowed do not induce vomiting. Give a glass of water. Material highly irritating and mildly corrosive if swallowed.      |  |  |
| 4.5 Advice to Physician Treat Symptomatically   | Treat Symptomatically   |  |  |
| 4.6 First Aid Facilities N/A  | N/A   |  |  |
| 4.7 Toxicity N/A  | N/A   |  |  |
| Section 5: Firefighting Measures  |   |  |  |
| 5.1 Suitable Extinguishing (Non-Flammable Material) Use appropriate fire extinguisher for surroundi environment.  | (Non-Flammable Material) Use appropriate fire extinguisher for surrounding environment.   |  |  |
| 5.2 Specific hazards Non flammable. May evolve toxic gases if strongly heated.  |   |  |  |
| 5.3 Advice for firefighters No fire or explosion hazard exists.   |   |  |  |
| Section 6: Accidental Release Measures  |   |  |  |
| 6.1 PPE Wear appropriate clothing, gloves, eye protection and facemask to avoid inhalation and contact with skin or eyes  | Wear appropriate clothing, gloves, eye protection and facemask to avoid inhalation and contact with skin or eyes  |  |  |
| 6.2 Environmental Do not allow this product to be released into storm water drains, creeks or open bodies of water. Only dispose according to lawful regulations.   |   |  |  |
| 6.3 Methods For Cleaning up spills Dry: Vacuum or using brush or soft broom Wet: Use a Cloth to wipe away excess. Make sure product doesn't pass through a drains, Sewers or water passages.  | Wet: Use a Cloth to wipe away excess. Make sure product doesn't pass  |  |  |

| Section 7: Handling and Storage |  |   |  |  |  |  |
|---------------------------------|--|---|--|--|--|--|
| 7.1                             | Precautions for Safe<br>Handling   | Avoid generating airborne dust during handling and storage. Avoid prolonged contact with skin. Avoid heavy or prolonged dust inhalation (See TWA Section 8). Engineering dust controls should be used ahead of, or in combination with the wearing of appropriate respiratory protection. |  |  |  |  |
| 7.2                             | Conditions for safe<br>storage, including any<br>incompatibilities                                 | Store in original packaging, under dry conditions. Keep fine products stored in closed containers. Avoid the generation of airborne dust.   |  |  |  |  |
|                                 | Section 8: Exposure Control / Personal Protection  |   |  |  |  |  |
| 8.1                             | 8.1 Control Parameters Each of the ingredients are listed below with the exposure limits for each. |   |  |  |  |  |
| 8.2                             | Biological Limits  | No biological limit values have been entered for this product.  |  |  |  |  |
| 8.3                             | Personal Protective Equipment  |   |  |  |  |  |
|                                 | Eyes/ Face   |   |  |  |  |  |
|                                 | Hands (  | Barrier cream and PVC gloves should be worn. Rubber boots.  |  |  |  |  |
|                                 | Respiratory  | Dust respirator, correctly worn, must be used in area in well-<br>ventilated area.  |  |  |  |  |
|                                 | Others   | Overalls should be worn. Eyewash unit should be present to flush eyes in the event of contamination.  |  |  |  |  |
| 8.4                             | Environmental Exposure<br>Controls   | All ventilation systems should be filtered before discharge to atmosphere.  |  |  |  |  |
|                                 | Section 9: Physical and chemical Properties  |   |  |  |  |  |
| 9.1                             | Form   | Fine grey sand/cement based powder. No odour.   |  |  |  |  |
| 9.2                             | Specific Gravity   | 1.5 Loose   |  |  |  |  |
| 9.3                             | Flammability Limited   | N/A   |  |  |  |  |
| 9.4                             | Form   | N/A   |  |  |  |  |
| 9.5                             | Boiling/Melting Point  | N/A   |  |  |  |  |
| 9.6                             | Vapour Pressure:   | N/A   |  |  |  |  |
| 9.7                             | Flashpoint   | Not Flammable   |  |  |  |  |
| 9.8                             | Solubility in water  | Partly Miscible   |  |  |  |  |
| 9.9                             | Other Properties -   |   |  |  |  |  |
|                                 | Section 10: Stability and Reactivity   |   |  |  |  |  |
| 10.1                            | Chemical Stability   | This product contains cement which will undergo a hydration reaction when mixed with water  |  |  |  |  |

| 10.2                            | Possibility of hazardous reactions    | N/A   |  |  |  |
|---------------------------------|---------------------------------------|---|--|--|--|
| 10.3                            | Incompatible Materials                | N/A   |  |  |  |
| 10.4                            | Conditions to Avoid                   | Extreme temperature, Product is stable under normal temperatures and conditions   |  |  |  |
| 10.5                            | Reactivity and Stability              | Reacts with incompatible materials.   |  |  |  |
|                                 | Section 11: Toxicological Information |   |  |  |  |
| 11.1                            | HEALTH HAZARD INFORMATION             | This material is hazardous according to health criteria of Worksafe Australia.  |  |  |  |
|                                 | Acute Toxicity:                       | N/A   |  |  |  |
|                                 | Skin corrosion/irritation             | Dust is irritating and may cause drying of the skin. Mixed material is moderately irritating to the skin. Constant contact with the skin may cause drying of the skin which may lead to dermatitis and may cause in some cases sensitisation. |  |  |  |
|                                 | Serious eye<br>damage/irritation:     | The dust is highly irritating and abrasive to the eye. Dust is capable of causing pain and conjunctivitis.  |  |  |  |
|                                 | Ingestion                             | Ingestion of this product may irritate the gastric tract causing nausea and vomiting.   |  |  |  |
|                                 | Repeated Exposure:                    | Causes damage to organs lungs through prolonged or repeated exposure by inhalation.   |  |  |  |
|                                 | Inhalation:                           | Dust is irritating to upper respiratory tract and lungs. Over exposure to respirable dust may cause coughing, wheezing and irritation to the nasal passages.  |  |  |  |
|                                 | Aspiration Hazard                     | N/A   |  |  |  |
|                                 | Swallowed                             | Material is irritating and mildly corrosive if swallowed. Ingestion may result in nausea, abdominal irritation, pain and vomiting.  |  |  |  |
|                                 |                                       | Section 12: Ecological Information:   |  |  |  |
| 12.1                            | Eco toxicity                          | This product is not expected to be hazardous to the environment   |  |  |  |
| 12.2                            | Degradability                         | When products hydrates, it will solidify with time making it non degradable.  |  |  |  |
| 12.3                            | Bio-accumulative<br>potential         | No literature available   |  |  |  |
| 12.4                            | Mobility in Soil                      | No literature available   |  |  |  |
| 12.5                            | Other adverse effects                 | No literature available   |  |  |  |
| Section 13: Precautions For Use |                                       |   |  |  |  |
| 13.1                            | EXPOSURE LIMITS                       | None assigned.  ES TWA: 10mg/m3 inspirable dust   |  |  |  |
| 13.2                            | Flammability                          | Non flammable   |  |  |  |
| 13.3                            | Environment                           | Not specified   |  |  |  |

| 13.4                                  | Other Precautions   | Not specified  |   |   |  |  |  |
|---------------------------------------|---|--|---|---|--|--|--|
| Section 14: Disposal Consideration:   |   |  |   |   |  |  |  |
| 14.1                                  | Disposal  Disposal shall be in accordance with local rules and regulations, in a method to minimize the generation of dust from it and its contact with water. PPE are required for disposal. |  |   |   |  |  |  |
|                                       | Section 15: Safe Handling Information   |  |   |   |  |  |  |
| 15.1                                  | 15.1 Storage & Transport  Multi-ply paper bag with sealed plastic liner or heavy gauge plastic bag or bucket. Check that all containers are clearly labeled and free from leaks.              |  |   |   |  |  |  |
| 15.2                                  | Packaging & Labelling   | Packaging and labelling as recommended by Sure Level Pty Ltd.                                      |   |   |  |  |  |
| 15.3                                  | Spills & Disposals  | Sweep up spills and dispose of in an approved disposal site. Avoid generating dust.                |   |   |  |  |  |
| 15.4                                  | Reactivity Data   | N/A  |   |   |  |  |  |
|                                       | Section 16: Fire/explosion Hazard   |  |   |   |  |  |  |
| 16.1                                  | GHS Classification  | Extinguishing Media: Upper Explosion Limit:  | Water mist, CO2, Foam, Dry Powder  Not Determined |   |  |  |  |
|                                       |   | Lower Explosion Limit:   | Not Determined                                    | - |  |  |  |
|                                       |   | Dust Explosion Limit:  | No  |   |  |  |  |
|                                       |   | May Decompose Explosively:   | No  |   |  |  |  |
|                                       |   | Hazardous Decomposition Products: None   |   |   |  |  |  |
|                                       |   | Section 16: Regul  | atory Information:                                |   |  |  |  |
| 16.1                                  | 16.1 GHS Classification Hazardous   |  |   |   |  |  |  |
| 16.2                                  | SUSMP   | Not Classified as a poisonous material   |   |   |  |  |  |
| Section 17: Supplementary information |   |  |   |   |  |  |  |
| 17.1                                  | Preparation Date  | 08/05/2024   |   |   |  |  |  |
| 17.2                                  | Review & Updates  | This SDS will be reviewed periodically every 2 Years and updated accordingly with any regulations. |   |   |  |  |  |
| End Of Safety Data Sheet              |   |  |   |   |  |  |  |
